AQUATIC EXPERIENCE

Our adventure begins on the majestic Don Diego River, a gift from the Sierra Nevada de Santa Marta. Accompanied at all times by our experienced local guides, we will embark on a kayak journey that will take us to explore the most hidden corners of the riverbanks. While navigating, we can observe howler monkeys, local and migratory birds, and listen to the natural sounds that fill the air.

Under the shade of towering trees, 30 or 40 meters high, we will reach the point where the waters of the Don Diego River meet those of the Caribbean Sea. Here, we will enjoy a refreshing swim in both fresh and saltwater, walk on the soft sand separating the river from the sea, and capture incredible moments in photographs. To return to the starting point, we will board a boat that will take us back.
