you enchanted.

Discovering Ancestral Treasures

LIVING THE ARHUACO
FOOTPRINTS

THE PATH OF NIGHT WHISPERS

EXPLORING TAYRONA PARADISE

THE WATERS OF THE PAST

THE GREAT TAYRONA
SANCTUARY

THE TEMPLE OF CACAO

Living The Arhuaco Footprints

ECOLOGICAL TOUR ON THE TAYRONA TRAIL AND VISIT TO THE KOGIS COMMUNITY:

From the Community of Don Diego, an ancestral path rises towards the heights of the majestic Sierra Nevada de Santa Marta. This path is a living connection between the people and the mountain.

As we advance along this path, our eyes delight in views of the two highest peaks in Colombia: Simón Bolívar and Cristóbal Colón, rising 5775 meters above sea level, alongside the Nevado de la Sierra de Santa Marta, weather permitting.

Additionally, we can admire the terraces that housed the Tayrona, characterized by the rocks used in their construction. Here, one of the most iconic Tayrona communities, the Kogis, was born, leaving a culturally significant legacy.

The Path Of Night Whispers

SAFARI NOCTURNO POR EL RIO DON DIEGO

Embark on an exciting Night Safari on the Don Diego River, where you will be transported by boat through its watershed. This adventure will give you the chance to explore the natural richness and unique biodiversity found in this region.

As you delve into the Don Diego River, you'll be surrounded by the magic of the night. The darkness will create a mysterious and fascinating atmosphere, as you immerse yourself in an ecosystem full of nocturnal life and sounds. An expert guide will help you discover the hidden wonders along the journey, pointing out the abundant biodiversity in the water and on its shores.

The Waters Of The Past

ECOLOGICAL TOUR OF VALENCIA WATERFALLS AND POOLS:

It begins with an ecological walk or horseback ride through the tropical jungle of the Sierra Nevada. After approximately one hour of travel, you will reach the majestic Quebrada Valencia waterfalls, a place of deep serenity.

The natural pools formed by these waterfalls were considered sacred by ancient tribes, symbolizing the renewal and purification of energies. Immersing yourself in their waters will provide you with a personal renewal experience in an environment of incomparable natural beauty.

Quebrada Valencia, where the Don Diego, Buritaca, and Guachaca rivers meet before reaching the ocean, is a perfect fusion of jungle, mountains, and crystal-clear waters. A true gift of nature for all your senses.

Exploring Tayrona Paradise

TOUR TO TAYRONA PARK:

Discover the natural beauty of one of Colombia's most impressive gems. The adventure begins with a guided walk through trails surrounded by lush jungle, where you can explore the different virgin beaches of the park, each more charming than the last.

Highlights include Cabo San Juan, an iconic beach surrounded by rock formations and crystal-clear waters. As you explore this natural paradise, you can admire landscapes that combine jungle and sea, and enjoy the authentic local cuisine, with typical dishes that reflect the cultural richness of the region.

This unique experience will allow you to connect with nature in its purest state, while delighting in the majesty of Tayrona Park.

The Great Tayrona Sanctuary

VISITA Y RECORRIDO POR KATANZAMA

Iniciaremos nuestra aventura en la vereda de Perico Aguao con una caminata tranquila de 50 minutos hacia una pequeña comunidad junto al Mar Caribe. Allí, aprenderemos el arte del tejido de mochilas y contribuiremos al fortalecimiento de la Sierra Nevada, conocida como el "corazón del mundo".

Con la guía de un local y un arahuaco, nos sumergiremos en la cultura y vida cotidiana de esta etnia. En Katanzama, exploraremos su comunidad, conociendo costumbres y tradiciones en lugares significativos como el sitio sagrado de reuniones, casas ceremoniales, el puesto de salud y el colegio. Finalizaremos nuestro recorrido en la hermosa costa del Mar Caribe.

The Temple Of Cacao

VISIT TO THE CHOCOLATE FACTORY:

This exciting activity begins with a fascinating introduction at a small cacao plantation, where an Arhuaco guide will take us into the wonderful world of cacao. This guide is part of an association of over 250 families of the same ethnicity. Every Wednesday, these families descend from various parts of the Sierra with their harvests to the collection center located in the village of Perico Aguao.

There, the cacao undergoes a fermentation process, followed by drying, selection, and finally, it is transformed into delicious chocolate bars. You will have the opportunity to taste a variety of chocolates, from 100% cacao to 60%, combined with intriguing flavors such as coffee, grapefruit, coca leaf, turmeric, ginger, spicy chili, among others.
